

# IFSTA Online Academy

**You've invested your career in your community.  
Now, invest your time in your career.**

## **Education to the Rescue.**

As an emergency response professional, you rely on your skills, training, and experience to make fast judgments and take appropriate actions to save lives and property. Kaplan Continuing Education (KCE) offers convenient courses from the International Fire Safety Training Association (IFSTA) Online Academy that are valuable not only for meeting licensing requirements, but also for expanding and updating your knowledge and skills to better serve the community that relies on you.

## **IFSTA Online Academy courses help you:**

- Gain a solid understanding of fire behavior and learn proven attack strategies and techniques
- Control infection in the pre-hospital environment and use personal protective measures against infections, including those caused by weapons of mass destruction

- Receive safety training that demonstrates proper techniques for tasks such as creating a water chute or testing a water hose, among others

## **The Kaplan Advantage. Professional Achievement Made Possible.**

- Flexible online classroom available 24/7
- Proprietary academic curriculum
- Personalized support
- Faculty of industry professionals

## **Your success is our success.**

Each course is designed to provide you with the knowledge and skills to advance your career with the highest level of service to your community.

# IFSTA Online Academy

The IFSTA Online Academy provides firefighter training videos and animated illustrations that meet all National Fire Protection Association (NFPA) 1001 requirements or the Standard for Fire Fighter Professional Qualifications. They also fulfill the objectives of many state and provincial agencies and fire departments, as well as certification requirements by third-party organizations. You'll receive instruction in fire safety that is also excellent preparation for hands-on practice of your skills.
