“Bed-confinement”

**Troubled by your EMS documentation?
Now there’s a solution.**

Confidentiality

PCRs in court

Who is a “patient”?

Mileage

Electronic documentation

Consent to treat

Non-emergency transport

Documenting dispatch

Emergency response

“Public assist” calls

Changing the chart

Closest appropriate facility

Documentation in multi-agency responses

Dynamic Documentation

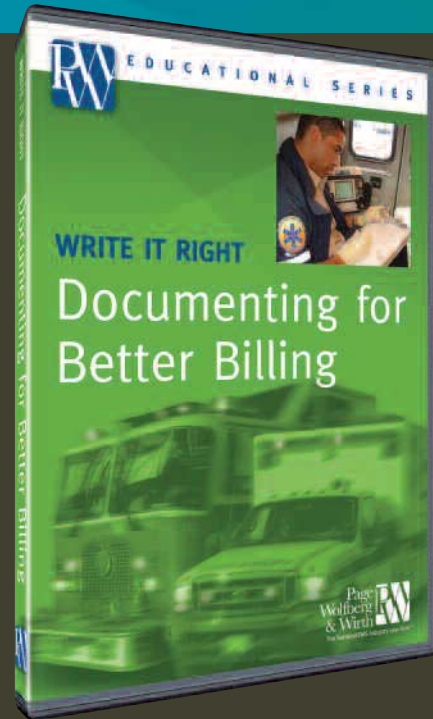

Documentation is one of the most important functions EMS personnel perform, yet most receive only a minimal amount of documentation training. And if your personnel aren't documenting every call properly, your organization faces an increased risk of substantial clinical, operational, legal, financial and compliance problems.

That's why the attorneys of Page, Wolfberg & Wirth, the nation's leading EMS law firm, created the **Write It Right EMS Documentation Video Series**. This proven program helps your personnel build critical skills in writing effective patient care reports. Reports that will withstand legal scrutiny. Support prompt and accurate billing decisions. And help defend your organization in a billing audit.

Each DVD presents material in clear, easily understandable language. There's no legal jargon or unnecessary information, just proven, practical information your personnel can put to use right away. What's more, all programs are nationally accredited for continuing education.

Presented by attorneys Doug Wolfberg (left) and Steve Wirth (right) of Page, Wolfberg & Wirth, LLC, the nation's leading EMS law firm. Their level of expertise and engaging presentation style have made them highly sought-after speakers at conferences nationwide.

Documenting for Better Billing

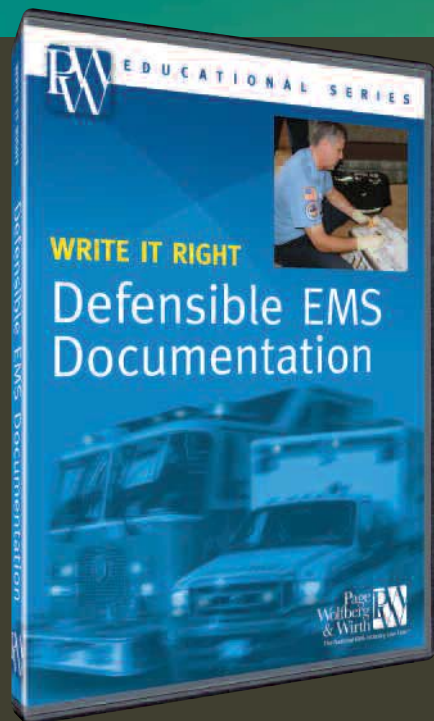

Better billing begins with better field documentation.

Documenting for Better Billing shows EMS providers up-to-the-minute documentation strategies that will improve compliance, streamline the billing process, and strengthen your organization's vital cash flow.

Designed for use by both emergency and non-emergency ambulance and medical transportation organizations, **Documenting for Better Billing** makes field documentation faster, easier and more straightforward.

Private, public and nonprofit ambulance services alike have used this proven, easy-to-follow system. Key topics include:

- Effective call intake documentation
- Assessing and documenting medical necessity
- Documenting "bed-confinement"
- Obtaining required signatures — who can sign?
- Patient destination and "closest appropriate facility" issues
- Improving documentation of insurance information
- Documentation for emergency **and** non-emergency billing
- And more!

EMS Legal News

Order Defensible EMS Documentation or Documenting for Better Billing today for just \$249, or get both programs for only \$100 more. Call 1-877-EMS-LAW1 (367-5291) or visit www.pwwemslaw.com for immediate shipment.

Defensible EMS Documentation

Could your documentation stand up to a major lawsuit?

Defensible EMS Documentation shows responders how to write patient care reports that can help defend — or even prevent — lawsuits, complaints and QA nightmares. EMS organizations nationwide have used this proven, easy-to-follow system to develop essential documentation practices that work in the real world. Key topics include:

- ☑ Effective charting formats
- ☑ Special considerations for minors
- ☑ Dealing with patient refusals
- ☑ Who is a "patient?"
- ☑ Delays in care or access
- ☑ Consent to treat — including implied consent
- ☑ Assessing and documenting mental capacity
- ☑ "Public assist" and "back to bed" calls
- ☑ Documentation in multi-agency responses
- ☑ Electronic documentation
- ☑ DNRs
- ☑ Confidentiality and documentation
- ☑ Actual case studies — PCRs in court
- ☑ Documenting dispatch
- ☑ Can you change the chart?
- ☑ And more!

BONUS!

Each DVD comes with a bonus CD-ROM including:

- ☑ Sample patient care reports
- ☑ Learning objectives
- ☑ Post-tests with instructor answer keys
- ☑ Customizable presentation slides
- ☑ Handout materials
- ☑ And more!
